# ManyChat Automation

Easily automate responses, build engaging flows, and grow your audience using chatbots.

1

## **SIGN UP AND CONNECT FACEBOOK**

- Go to [ManyChat](#) and create an account.
- Connect your Facebook page to ManyChat.

2

## **CREATE A WELCOME MESSAGE**

- Navigate to Automation > Welcome Message.
- Customize the message that new users receive when they start a conversation.

3

## **SET UP DEFAULT REPLY**

- Go to Automation > Default Reply.
- Create a fallback message for unrecognized inputs.

4

## **BUILD A FLOW**

- Open Automation > Flows.
- Use the drag-and-drop editor to create conversational flows.

5

## **ADD GROWTH TOOLS**

- Go to Growth Tools > + New Growth Tool.
- Select a tool like a widget, popup, or URL to attract new subscribers.

6

## **TEST YOUR BOT**

- Click Preview to send a test message to your Facebook page.

# Workflow Automation

Seamlessly link tools and automate repetitive tasks to save time and effort.

- 1 CREATE A ZAPIER ACCOUNT**
  - Sign up at Zapier.com.
- 2 START A NEW ZAP**
  - Click + Create Zap in the dashboard.
- 3 CHOOSE A TRIGGER APP**
  - Select an app (e.g., Gmail, Slack) and set the event that starts the workflow.
- 4 ADD AN ACTION APP**
  - Select another app where the action will occur (e.g., Trello, Google Sheets).
  - Define the action, like creating a card or updating a row.
- 5 MAP DATA**
  - Use the fields to map data from the trigger app to the action app.
- 6 TEST THE ZAP**
  - Run a test to ensure the zap works as expected.
- 7 TURN ON YOUR ZAP**
  - Click Turn On Zap to activate.

# Leadflow Management

Track, nurture, and manage customer relationships to optimize your sales process.

1

## CHOOSE A CRM

- Select a CRM that fits your needs (e.g., HubSpot, Salesforce, or Pipedrive).

2

## SIGN UP AND SET UP YOUR PROFILE

- Create an account and add your business details.

3

## IMPORT CONTACTS

- Go to Contacts > Import and upload your contact list via CSV or manual entry.

4

## SET UP PIPELINES

- Navigate to Deals or Sales Pipelines.
- Customize stages based on your sales process.

5

## AUTOMATE WORKFLOWS

- Use the Automation feature to create rules for lead nurturing and follow-ups.

6

## INTEGRATE TOOLS

- Connect your CRM with tools like email platforms, calendars, or invoicing software.

# Email Engagement

Create, automate, and track email campaigns to connect with your audience effectively.

1

## **SIGN UP**

- Create an account with a platform like Mailchimp, Constant Contact, or Klaviyo.

2

## **IMPORT YOUR LIST**

- Navigate to Audience > Import Contacts.
- Upload your subscriber list in CSV format.

3

## **SET UP YOUR FIRST CAMPAIGN**

- Click Create Campaign > Email.
- Choose a template or build one from scratch.

4

## **AUTOMATE EMAILS**

- Go to Automations > Create New Automation.
- Set up sequences like a welcome series or abandoned cart emails.

5

## **INTEGRATE WITH OTHER TOOLS**

- Connect your email platform to tools like Shopify, WordPress, or a CRM.

6

## **TEST AND SEND**

- Send a test email to ensure it looks good.
- Schedule or send the campaign.
